NATIONAL CAREERS WEEK HIGHLIGHTS

Thank you to everyone who took part in National Careers Week! It was a fantastic opportunity to meet employers from different industries and gain real insight into the world of work.

From career fairs to online workshops, students explored new career paths, asked great questions, and learned directly from professionals about the skills and experiences that matter.

We hope the week has inspired you to think about your future

✉ If you joined any online sessions, don't forget to complete the [Feedback Form](#) to log your work experience hours!

UNDERSTAND LABOUR MARKET INFORMATION (LMI)

LMI is all about jobs—what careers are in demand, the skills employers want, and salary expectations. It's a great tool for helping you make informed decisions about your future.

How You Can Use LMI:

- Discuss Job Opportunities: Think about growing industries and skills that are in demand.
- Explore LMI Resources: Use the college's careers team and websites like the National Careers Service to find out about industries with strong job prospects and the qualifications you'll need.
- Stay Informed: Regularly engage with the careers team for job market updates and work experience opportunities.
- Connect LMI to Your Interests: Align your skills and passions with careers that are in demand.
- Learn from Real-World Examples: See how shifts in technology and the economy create new job opportunities, like the increasing need for digital skills.
- Plan Your Career: Set realistic career goals based on trends in the job market, required qualifications, and opportunities available through the college.

Using LMI can guide you in making the best decisions about your education and career path. More information can be found in this [Google Document](#).

ENRICHMENT MONEY MANAGEMENT > BUILD MONEY CONFIDENCE

Want to feel more in control of your money? Join our Money Management Workshops and gain the skills to manage your finances with confidence. Whether it's budgeting, saving, or understanding your spending habits, this workshop is a great way to build essential life skills.

If you want to learn about handling finances, from budgeting to financial planning; this is for you! [Click here to book a session](#)

ENRICHMENT CHESS & GAMES CLUB (PS4 NOW AVAILABLE!)

Love chess? Join us to play, learn, and improve your skills! Other tabletop games are also available for some extra fun.

15:00 - 16:00

Monday (Open to all):

16:00 - 17:00

ENRICHMENT DID YOU KNOW?

There are many more enrichment activities available around the West London College.

You can find them, and more information about the clubs shown through the following [Google Document](#) link.

ENRICHMENT DIGITAL SCRIPTING CLUB

In Digital Sculpting Club, students dive into 3D sculpting using Blender, developing skills in digital art and creativity.

Digital Sculpting is 3D modelling technique that uses software to create detailed models by shaping a digital material as if it were clay, the final product can be added into video games, 3D animation, 3D printed or rendered as 3D artworks.
